

Intelligent Urban Transport Systems

New date for IT-TRANS 2022: May 10 - 12, 2022

Karlsruhe/Brussels, January 13, 2022 – IT-TRANS, the International Conference and Exhibition on Intelligent Urban Transport Systems, has been rescheduled and will now take place at Messe Karlsruhe from May 10-12, 2022.

Exhibitions and conferences like IT-TRANS are based on personal exchange and networking. The current Corona Ordinance of the German state of Baden-Württemberg dated December 20, 2021, prohibits the organisation of exhibitions and conferences during alert level II, in which Baden-Württemberg has been since December 4, 2021, and whose regulations will be prolonged until further notice. In addition, the rapid spread of the Omicron variant is causing social uncertainty. The organisers of IT-TRANS, Messe Karlsruhe UITP – International Association of Public Transport – have therefore decided to postpone the exhibition and the accompanying three-day conference to May.

The new date has been set for 10 - 12 May 2022 at the Karlsruhe Trade Fair Centre.

Britta Wirtz, Managing Director of Messe Karlsruhe, emphasizes the necessity of rescheduling. „We would have liked to continue our successful exhibition restart from last fall," she explains. "By rescheduling, we would like to offer all involved in the exhibition and the conference the possibility of reliable planning and hope to return to normality in trade fair operations, in what we hope will be an endemic situation by then."

UITP plan to bring both their Executive and Policy Boards to Karlsruhe during IT-TRANS in May, which adds real value for exhibitors and visitors.

All tickets purchased for IT-TRANS remain valid.

Intelligent Urban Transport Systems

IT-TRANS, the International Conference and Exhibition on Intelligent Urban Transport Systems, was first held in Karlsruhe in 2008. The biennial event quickly established itself as the leading platform for the industry. It is organised by the International Association of Public Transport (UITP) and Karlsruher Messe- und Kongress GmbH.

IT-TRANS is supported by the Association of German Transport Companies (VDV), the Italian transport association ASSTRA and ITS Spain.

The event is aimed at all organisations and businesses in urban mobility, in particular decision-makers in public and private transport companies, regional governments, transport authorities and associations. Around 270 international companies present their latest products and services at the exhibition. At the three-day conference, international speakers provide practical information about innovations in a series of sessions, workshops and presentations, along with recommendations on how to best use digital solutions in urban mobility.

The next IT-TRANS will take place from 10 to 12 May 2022 at the Karlsruhe Trade Fair Centre under the patronage of the European Commission and Winfried Hermann, Minister of Transport of the German State of Baden-Württemberg.
